Psychoanalysis and Politics is an international and interdisciplinary conference series which aims to address how crucial contemporary political issues may be fruitfully analysed through psychoanalytic theory and vice versa – how political phenomena may reflect back on psychoanalytic thinking. We emphasise room for discussion among the presenters and participants, thus the symposium series creates a space where representatives of different perspectives come together and engage with one another's contributions, participating in a community of thought. Psychoanalysis and Politics is registered as a non-profit organization in Norway with the org.no. 998 503 221. Conferences have been held in 10 European countries since 2010.
